

## **PROGRAM DESCRIPTION**

The UGA Graduate Certificate is a one-year program, which enhances residency program experiences to foster excellence in clinical training and scholarship. All UGA and UGA-affiliated residencies participate. Upon successful completion of the program, residents will be awarded a Graduate Certificate in Clinical Pharmacy in addition to the residency certificate.

## **BENEFITS TO THE RESIDENT**

- **Unique training experience**
- **Graduate School credit earned during residency training**
- **Diverse electives to meet varied interests**
- **Opportunity to work with UGA faculty on research and teaching**
- **Experience in a multi-disciplinary, multi-program educational environment**

## **PROGRAM MISSION**

**To improve the health and well-being of individuals and society through excellence and leadership in direct patient care, teaching, and scholarship**

## **PROGRAM GOALS**

- **Enhance academic rigor of training**
- **Foster excellence in teaching in pharmacy**
- **Promote advanced study in a graduate program**
- **Provide an official graduate school record of accomplishment upon successful completion of program**  
Produce graduates who are “scholarly clinicians”

## **GRADUATE PROGRAM COURSES**

Certificate courses encompass residency experiences (e.g., Direct Patient Care, Teaching & Research). With approval of your Program Director, you may also enroll in a wide-range of elective courses that meet your individual interests and learning objectives.
